Notes on the working of hospitals and dispensaries in Bihar during the year 1939.

I remained incharge of the medical department for the periods from the beginning of the year to 30th April 1939 and again from the 29th September 1939 to its close. During the intervening period LT.-COL. J. C. John, O.B.E., I.M.S., Civil Surgeon of Darbhanga, officiated for me. The general impression from the various statistical returns of hospitals and dispensaries indicates that the medical institutions worked with increased popularity. The scheme for subsidising medical officers in rural areas progressed. **General.**

The number of hospitals and dispensaries at the beginning of the year was 620, increasing to 630 at its end. Eleven new dispensaries were opened, and one, the Police Hospital, Motihari, was closed. Of those newly opened, two were class I—State Public. One of these was the hospital at Ramgarh in Hazaribagh district, opened temporarily for the medical arrangements of the Indian National Congress Session for 1939, and the other also a temporary dispensary at Sonathi in Muzaffarpur district, formerly working under the Bihar Relief Committee and which was ultimately taken over by Government. The remaining nine were class VII—Subsidised dispensaries. The Private non-aided hospital at Barari in Bhagalpur district, and the Naba Kusta Nibas Hospital (a leprosy treatment institution) in Manbhum district were transferred to class IV—Private aided whilst the Amjora dispensary in Santal Parganas, previously counted as a class IV—Dispensary was placed in class VII. The distribution of dispensaries at the end of the year 1939 was 525 rural and 105 urban institutions. **Statement A. (Number of hospitals and dispensaries.)**

The position of medical personnel in all classes of hospitals and dispensaries during 1939, as compared with that in 1938 is shown in the statement below :— **Statement B. Personnel.**

Class of personnel.	1939.		1938.	
	Male.	Female.	Male.	Female.
I. M. S.	14	..	11	..
W. M. S.	..	1	..	1

Midwives	..	104	..	80
Dais	..	74	..	72
Compounders	683	12	690	3

Statement C. Appendix I. (Patients treated in public institutions).

The number of in-door patients treated in State Public, Local Fund and Private Aided hospitals during 1939 was 94,847 against 90,615 during 1938. The corresponding figures for out-door cases in 1939 in the above classes of hospitals and dispensaries and also subsidised dispensaries are 6,717,090 as against 6,498,381 in 1938. No in-door cases were treated in the subsidised dispnsaries.

The patients according to Appendix I fall in the following classifications during the year under review and the previous year :—

	1939.	1938.
European and Anglo-Indian ..	3,668	3,636
Hindus	5,329,439	5,141,047
Muhammadans	1,361,264	1,315,679
Others	127,566	128,634
Total ..	6,811,937	6,588,996

The total in-door accommodation available in the Class I, III and IV institutions was 2,657 beds for male patients and 1,401 for the females as against 2,465 and 1,298 for males and females, respectively, in 1938. Overcrowding in the hospitals continued and extra beds had to be provided for at the important institutions, including the Patna Medical College Hospital and Darbhanga Medical School Hospital, to meet the large number of patients seeking in-door treatment.

The following statement shows the total daily average attendance of patients in 1939 as compared with 1938 :—

Years.	A.—General Dispensaries.		B—Female Dispensaries.		C—Subsidised Dispensaries.		Total.	
	In.	Out.	In.	Out.	In.	Out.	In.	Out.
1	2	3	4	5	6	7	8	9
1939 ...	3954·81	51026·39	203·06	445·26	...	1102·36	4157·87	52574·01
1938 ...	3747·96	49082·02	178·90	493·04	...	320·94	3926·86	49896·00

and the result of treatments was as in the statement below :—

Years.	Curred.	Relieved.	Discharged otherwise.	Died.	Remaining of whom no record is available.
1	2	3	4	5	6
1939	62·05	15·22	13·32	6·43	2·98
1938	61·24	15·91	12·36	5·84	4·65

Statemnt D. (Diseases).

This statement shews that 8,525,987 patients were treated in total for all classified diseases in all classes of hospitals and dispensaries during the year 1939. The number of such patients was 8,300,126 during 1938. The bed capacity of all the hospitals was 4,359 for male patients and 2,373 for females, and the corresponding figures for 1938 were 4,198 and 2,275, respectively.

Besides the cases treated in the State Public, Local Fund, Private aided, and Subsidised institutions the patients treated in State Special, Private non-aided and railway hospitals and dispensaries are also included in this statement. The figures for these classes of institutions are given below for 1939 and 1938 :—

	1939	1938
State special.		
Police	37,787	27,856
Forests and Surveys	—	—
Canals	5,033	5,077
Others	—	—
Private non-aided.		
Under Government supervision	402,253	466,475
Not " " " ..	948,819	906,437
Railways	320,158	305,285

The figures for some of the principal diseases and deaths thereof are shown in the following table :—

Disease.	1939.		1938.	
	No. treated.	Deaths.	No. treated.	Deaths.
1	2	3	4	5
Cholera	11,027	411	8,517	275
Dysentery (Bacillary and Amaebic)	189,868	169	165,303	363
Malaria	1,504,052	279	1 503,383	309
Kala-Azar	119,465	388	116,568	387
Pneumonia	14,424	448	14,794	417
Tuberculosis of lung	26,255	259	24,753	272
Ankylostomiasis	47,771	155	40,937	137

The intensity of the abovementioned diseases was noticed in the following places :—

Diseases.	Districts.
Cholera	Patna, Gaya, Darhhanga, Monghyr and Bhagalpur.
Dysentery	Patna, Gaya, Shahabad, Darbhanga, Monghyr, Purnea and Singhbhum.
Malaria	Almost all districts of the province, but was prevalent with severe intensity in *Champaran, Muzaffarpur, Darbhanga, Bhagalpur, Purnea* and *Manbhum*. Purnea treated highest number of cases.
Kala-Azar	Muzaffarpur, Darbhanga, Bhagalpur and Purnea.
Pneumonia	Patna, Purnea and Singhbhum.
Tuberculosis	Patna, Shahabad, Saran, Monghyr, Purnea and Santal Parganas.
Ankylostomiasis	Saran, Muzaffarpur and Darbhanga.

Venereal-diseases. Special grants were given as usual for treatment of venereal diseases to sadr and subdivisional hospitals.

Kala-Azar. The policy of financing the treatment of Kala-Azar underwent some change. Instead of giving money grants to hospitals and dispensaries for purchase of medicines for treatment of Kala-Azar, they were asked to submit indents for the required quantities of necessary drugs from the firms recognised for supply of these drugs. These indents after check were sent to the firms through the Director of Public Health and the medicines were supplied to the institutions concerned. The cost was met from the sum of Rs. 60,000 set apart by Government in the medical budget for the year 1939-40. Of this total allotment, only Rs. 4,20,000 was spent as the supply of (Bayers' Neostibosan) being German, was cut short after the outbreak of the European War.

Twenty-one temporary Kala-Azar treatment centres were also operated by the Public Health Department and 11,848 patients were treated in these centres during the year 1939.

Research on incidence of Kala-Azar in North Bihar was started in May 1939 at the Darbhanga Medical School under the guidance of Dr. R. O. A. Smith, I. M. D. of the Indian Research Fund Association. It is still being carried out.

Tuberculosis. As will be apparent from the figures given above the number of tuberculosis cases treated increased. The work of the Tuberculosis Association, Bihar, made remarkable progress during 1939. The number of out-door clinics opened stood at 16 at the close of the year 1939 as against 14 in the previous year. Systematic examination and diagnosis of patients suspected of suffering from Tuberculosis was carried out and treatment was provided by free supply of medicine from the hospitals where the Anti-Tuberclosis clinics are attached and by giving injections of Calcium Chloride, Gluconate, etc, from clinics themselves, Gold, calcium, Gold Theocardiam O'basenn, A. O. Vaccine, A. P. etc., were also provided for where it was necessary and the patients could meet the cost. Preventive propaganda was carried out by distributing pamphlets and systematic visits at the home of the patients were carried on by trained health visitors throughout the year. Instructions regarding proper management of the patient and disposal of infective materials were explained at these visits.

Anti-Rabic treatment. Further decentralisation of Anti-Rabic treatment was effected. Two more Anti-Rabic treatment centres were opened in 1939, namely, at Gaya and Daltonganj, respectively, bringing the total of such centres to 13.

Lepers and Leprosy. The number of Leper Asylums increased from six to seven during 1939, by the opening of another Leper Asylum at Bhagalpur. The total number of these institutions at the end of the year was seven Leper Asylums and one Leper Colony. There were also proposals to start a Colony for some sixty patients in Dhanbad and to convert the clinic at Monghyr into a Leper Asylum.

Two thousand seven hundred and seven in and 3,248 out patients were treated in these leper institutions during 1939, against 2,243 in and 2,823 out-patients of the previous year. The apparent difference in the figures for in and out patients treated in 1938 shown above and in the note attached to the annual returns of hospitals and dispensaries of 1938 is due to the fact that patients for that year were recounted since then (only new cases being taken into consideration, and the resultant figures have been noted).

The expenditure on the maintenance of all the Leper Asylums except the new one opened at Bhagalpur and the Saldaha Leper Colony was Rs. 1,82,368 in 1939, against the similar expenditure of Rs. 1,94,375 during the previous year.

The number of out-door clinics was 46 in 1939, as against 44 during the previous year. Three clinics opened in 1938 were not accounted for in the dispensary report of that year. Eleven thousand three hundred and fifty-five patients were treated in these clinics against 9,598 in 1938.

The number of leprosy cases treated in all classes of hospitals and dispensaries was 9,010 as against 7,715 in 1938. Thus there was progress in anti-leprosy treatment under all heads.

Intensive survey and treatment is being carried on at four centres in Manbhum district where leprosy is known to be worse. In these surveys the propaganda against the spread of leprosy is being specially stressed.

In 1939, 384,615 operations were performed in all classes of hospitals and dispensaries, whilst the number of these operations was 411,478 during 1938. The number of operations performed in State Public, Local Fund, Private-aided and subsidised dispensaries was 326,613 against 333,464 in 1938. The number of patients operated was 320,743 and 327,400 during 1939 and 1938, respectively. Statements D. and E. Operations.

The following statement shows the result of operations during 1938 and 1939 :—

Year.	Cured.	Relieved.	Discharged.	Died.	Remaining.
1	2	3	4	5	6
1939	98·46	0·94	0·23	0·09	0·28
1938	97·91	1·25	0·33	0·17	0·34

The deaths from operations in hospitals and dispensaries were 505 in 1939 and 607 in 1938.

Income from all sources in the class I, III, IV and VII hospitals and dispensaries was Rs. 25,73,097 during the period of review against Rs. 26,07,021 of 1938. These figures exclude the opening cash balances during the respective years. The total expenditure stood to Rs. 27,90,656 in 1939 and Rs. 27,51,515 during 1938. Statement F. & G. (Income, etc.)

The invested capital of the above mentioned institutions was Rs. 14,24,258 at the beginning of the year and Rs. 14,19,786 at its close. Rupees 8,827 were invested during the year of review but there were more withdrawals than investments as is apparent from the closing balance.

The two mental hospitals at Kanke, Ranchi, the Itki Sanatorium and the Radium and Pasteur Institutes at Patna worked up to their standard efficiency during the year under report. Detailed reports on their working are published separately. Short notes on the working of the Prince of Wales Medical College, Patna, and Darbhanga Medical School for the period 1939-40 are incorporated herein as Appendix A.

APPENDIX A.

The College entered on its fifteenth session on the 16th July 1939. Prince o. Wales Medical College, Patna.

Lt. Col. G. H. Mahony, I.M.S., was incharge of the College from 1st April 1939 to 6th November 1939 and after him Rai Bahadur Dr. T. N. Banerji, M.B., M.R.C.P., D.T.M. and H., remained incharge from the 7th November 1939 to the end of the session. Captain J. D. Murdoch, M.D., Ch.B., F.R.C.S.E., I.M.S., was appointed Professor of Obstetrics and Gynaecology from 8th November 1939 and Captain A. C. Taylor, M.A.M.B., F.R.C.S E., D.T.M., I.M.S., Civil Surgeon of Patna, took up duties of the Professor of Clinical Surgery.

Eighty-one applications were received for admission to the College of which 43 candidates including 5 lady students were admitted in the 1st year class of the College after due selection.

The number of students on the rolls of the College was 291, the daily average attendance being 245.

In the statement below is shown the result of various university examinations held at the College during 1939 :—

Examinations.	January 1939.		March 1939.		September 1939.	
	Appeared.	Passed.	Appeared.	Passed.	Appeared.	Passed.
1	2	3	4	5	6	7
1st M. B., B. S. ..	38	34	8	7	..	..
2nd „ „ Part I ..	..	..	34	31	7	5
Ditto Part II ..	..	..	48	31	22	15
Final M. B., B. S. Part I ..	..	..	38	26	19	11
„ „ Part II ..	..	..	39	16	36	18

The Laboratories of all the departments were much improved by addition of new apparatus. Ninety-three new books were added to the College library.

The St. John Ambulance Association activities were kept up at a high level of efficiency so much so that 327 students attended First-aid and Home Nursing Classes.

Darbhanga Medical School.

During the year under report, Lt. Col. J. C. John, O.B.E., M.B., Ch.B., M.R.C.S., L.R.C.P., I.M.S., remained incharge of the Darbhanga Medical School as Superintendent from the beginning of the year to the 29th April 1939 and again from the 4th October 1939 to the close of the session. During the intervening period Lt.-Col. John officiated as Inspector-General of Civil Hospitals, Bihar and Major H. J. Curran, I.M.S., worked as Superintendent of the School.

The duty of teaching Materia Medica to both the Medical and Compounder students was transferred from the Teacher of Medicine to the Teacher of Physiology, two new posts of teachers of Opthalmology and Forensic Medicine were created and also the Health Officer of Darbhanga District Board was appointed as a teacher in Hygiene.

Fifty-one candidates were admitted to the first. year class, of which seven were female students.

The total number of students who appeared and passed in the various examinations of the Bihar and Orissa Medical Examination Board held in April and November 1939 was as follows :—

	No appeared.			No passed.
Final Part II	73	..	..	.. 42 including one lady.
Final Part I	59	..	..	.. 44
Intermediate	70	..	..	.. 47
Primary	52	..	..	.. 47

Two hundred and thirty-six students were taught in the Licentiate class during the year under report.

Ten local Indian doctors were deputed for Post-graduate training and passed the examination.

Electrical fittings were installed in the school, its hostel and the buildings attached to it.

St. John Ambulance Association activities received ample support from the students of the school. One hundred and forty-three students received training in First-aid and Home Nursing.

H. STOTT,

O.B.E., M.D., F.R.C.P., D.P.H., V.H.S., Lt. Col., I.M.S.,

Inspector-General of Civil Hospitals, Bihar.

APPENDIX STATISTICAL TABLES.
